After extensive Deliberations, the committee NOTED the following observations that :

1. The committee was not privy to the documents that led to the generation of the report. As such, approval cannot be granted based on ordinary information given by the project auditor. However, With the assurance from the project Director, project accountant and the project auditor that due diligence has been done and that such will not repeat in the future. It was agreed that the committee accept the report.
2. There is need to have access to some of the corresponding documents
3. No one is in doubt of the credibility of the centre (LASU-ACEITSE) team but for records and for perusal, there is the need to have access to the documents at a proposed date.
4. The committee is not a rubber-stamp. As such the centre (LASU-ACEITSE) needs to present their documents for verification.
5. There was discrepancy in the amount recorded for expenditure as 77 million was recorded in executive summary and N149, 282, 870.71 was written in the body of the report
6. Under the objectives, it was noted that the external auditors should be available for review at least once a year
7. Under the internal controls (section 3.2), a grammatical error was noted on lines 4 and 5
8. Under the cash advance retirement (section 3.7), it was noted that there should be a reduction in the suspense account from 690, 000.00. However, the project auditor noted that it was a system error which would be addressed
